John Michael M. Chang

"Full Stack Web Developer"

(B.S. AIR TRANSPORTATION

PATTS COLLEGE OF AERONAUTICS)

SUMMARY

"As a recent graduate of a full stack web development bootcamp, I am eager to leverage my newly acquired skills and knowledge to build dynamic and engaging websites and web applications. Through the bootcamp, I gained proficiency in front-end technologies such as HTML, CSS, and JavaScript, as well as back-end technologies such as Node, Express, and MongoDB. I am passionate about continuously learning and staying up-to-date with the latest trends and technologies in web development, and I am excited to join a team that values innovation and creativity."

EDUCATION

Post Graduate

SAPPHIRE International Aviation Academy July 2019-October 2019

College

PATTS College of Aeronautics 2014-2019

High School

Bauan National Agricultural and Vocational High school 2008-2012

FULL STACK WEB APP

I possess significant experience in game programming and web application development, as evidenced by my completion of the StackTrek Bootcamp course. During the course, I developed a capstone project called Mindscapes, which is a unique diary-style website that enables users to document their personal experiences and reflections. Through Mindscapes, individuals can share their experiences, view each other's lives, and gain insights into their past experiences.

WORK EXPERIENCE

NAVFIX FLIGHT SERVICE

(JULY 01, 2022 – OCTOBER 29 2022) (FLIGHT OPERATION OFFICER) The internship opportunity that I had with NavFix Flight service was a great opportunity for learning and professional development. It improves my critical thinking corresponding with communicating with customers and clients. Not only do we secure and monitor the safety of the flights, but we also learn a proper way of coordination when it comes to procedure and operations of the flight from start until the end.

AirAsia

(October 21, 2019-March 11, 2020)

(Operations Control Center department)

The internship opportunity that I had with AirAsia. was a great opportunity for learning and professional development. It also boosts my confidence and helps me to communicate easily with other workers. I was appointed at Operations Control Center which is its main objective is to secure that all flights will make it to their destination. We monitor flights tracks, weather forecasts, radio communication, and especially learn to make flight plans.
